

Event Easel Working Project Demo

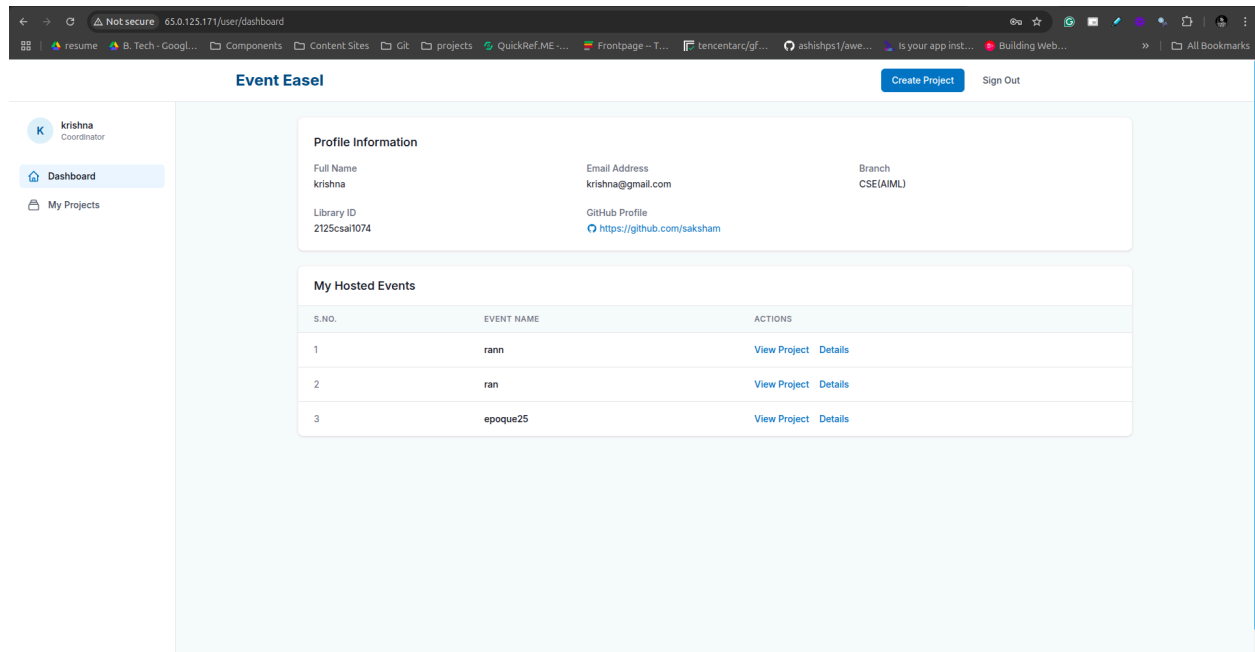

This is the home page of our website, Users can sign-up or login

This is a single login page where the user or coordinator can both login

Student dashboard and profile page where he/she can view his/her profiles and the events in which they are registered

This is the Coordinator dashboard; they can see the events they have hosted and can even host another event.

The screenshot shows a web browser window with the URL `65.0.125.171/event/create`. The page title is "Event Easel" with the subtitle "Create a new event". The form is titled "Event Details Form" and contains the following fields:

- Event Name:** A text input field.
- Email:** A text input field with the placeholder "Enter your Email".
- Short Description:** A text input field with the placeholder "Small Description about event".
- Event Details:** A larger text area with the placeholder "Brief Details about event".
- Registration Start Date:** A date picker with the format `dd/mm/yyyy`.
- Registration End Date:** A date picker with the format `dd/mm/yyyy`.
- Event URL:** A text input field with the placeholder "Event Site URL (should match Event Name)". Below it, a note states: "URL should match the Event Name (without spaces)".
- About Image:** A text input field with the placeholder "About Image Link".

This is the form coordinators must complete to host an event. By filling out this form, a deployed event website will be created. Students can also register and access important details from it.

The screenshot shows the "Event Easel" interface for a coordinator. The header includes the "Event Easel" logo and a "Sign Out" link. The left sidebar shows the user profile "K krishna Coordinator" and navigation links for "Event Details" (active) and "Participant Details". The main content area is divided into two sections:

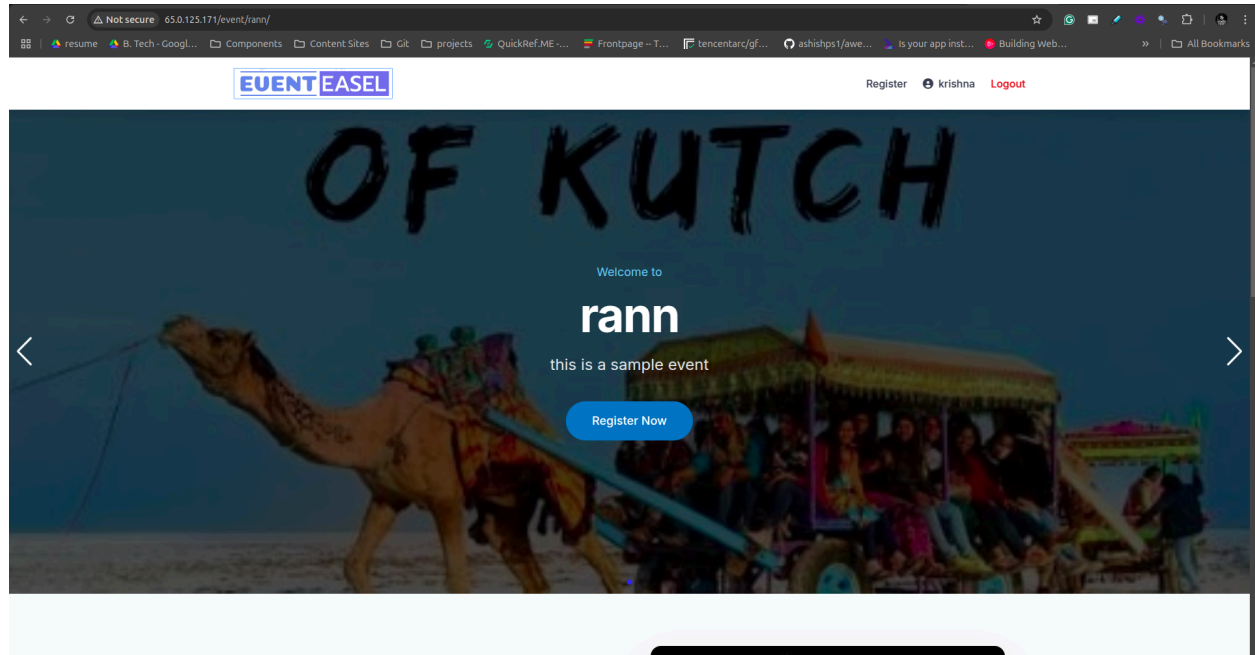

Event Details

Event Name rann	Visit Site rann	Created By krishna@gmail.com
Total Registrations 2	Start Registration Date 2025-02-20	End Registration Date 2025-02-26

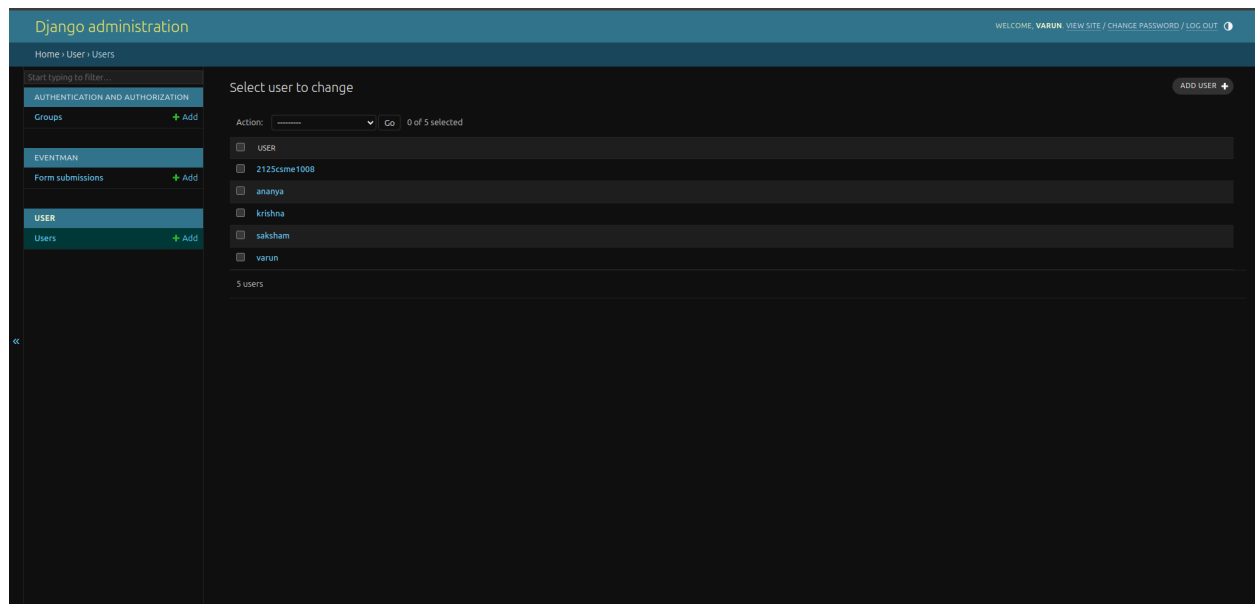

Participant Details

S.NO.	PARTICIPANT NAME	EMAIL	BRANCH	GITHUB
1	varun	varun@kiet.edu		
2	saksham	saksham@kiet.edu	CSE(AI)	https://github.com/1010varun

This is the event details page visible to the coordinator who created the event. Here, he can see about evenet and the students who have registered till now to the event

This is the event's deployed site. Students can register on it and view important details about the event.

This is the admin page for our website. Admins can assign different roles to different students. Users will sign up as students, but the admin can change their role to coordinator so that they can also host an event.
